

Visit Three: The Journey of Motherhood Summary Points

- The home environment that has a mother preoccupied with heaven as much as earth, is a Mom destined to shape kingdoms.
- The hand that rocks the cradle rules the world. A good mother not only influences her child but a nation.
- The greatest love gift parents can give their children is a tangible love relationship between Mom and Dad.
- When there is harmony in the marriage relationship, there is an infused stability in the family.
- Following after a good example is much wiser and safer than following after someone's "good opinion" or the latest parenting fad. With the good example, at least you know what you're getting.
- Genesis 1:27 not only reveals the uniqueness of man's creation, that we were all fashioned in God's image, but it also reveals how God decided to reflect his image by creating humankind male and female.
- The concept of male and female bearing the image of God speaks to gender predispositions and propensities. Men and women, boys and girls are different by God's intentional design.
- It is an unfortunate fact, mothers who work outside the home are most vulnerable to stress and excessive fatigue that comes by trying to balance employment, marriage, parenting, and social life.
- One of the greater mistakes any mom or dad can make is to parent their child's emotions and not the whole child.
- If parents become characterized by emotionally rushing in to rescue, in a way that is totally disproportionate to what actually happened to the child, the child learns to respond to the parent's emotions and not the actual circumstance.
- Where will the Journey of Motherhood take you and what will the name Mom come to mean to your children?
